Dragon Puppet

You are going to construct a puppet showing details from our unit discussions about traditional dragons, The Beast, and Komodo dragons.

Front of Puppet:

Use construction paper to provide details on the paper bag given you. I will be looking to see that you have provided at least four details:

One thing that is the same about your dragon and traditional dragons.

One thing that is the same about your dragon and The Beast.

One thing that is the same about your dragon and Komodo dragons.

NOTE: Each of these must be DIFFERENT – three DIFFERENT details!!!

One unique thing about your dragon that is different from traditional dragons, The Beast, and Komodo dragons.

Back of Puppet:

Using complete sentences that are correctly capitalized and punctuated, give the following information about your dragon:

1. Explain the feature that is the same on your dragon and traditional dragons.
2. Explain the feature that is the same on your dragon and The Beast.
3. Explain the feature that is the same on your dragon and Komodo dragons.
4. Explain the feature that is true ONLY of YOUR dragon and not the others!

Overall:

- Neatness
- Creativity
- Reflects knowledge of class unit discussion.
