Marley's Ghost Timeline Directions

You are going to design and construct a timeline that gives information about the strange events leading up to and including the visit by Marley's Ghost.

At least six strange things happened to Scrooge on Christmas Eve. Choose four of them. Complete a circle for each event. On one side of the line in the circle, write a grammatically correct sentence describing the event. On the other side of the line, draw and color a picture illustrating the event.

On the fifth circle, draw and color a picture of Marley's Ghost. Include the following details:

- pigtail
- handkerchief around head holding jaw up
- chain around waist with items hanging from it

On the sixth circle, answer the following questions using grammatically correct sentences.

1. What had Marley's Ghost been doing for the seven years since he died?
2. Why did he come to visit and talk to Scrooge?
3. What did he tell Scrooge?

Overall timeline:

1. Cut out the timeline circles, and glue them together back-to-back. You should end up with three discs.
2. Borrow the hole puncher and punch a hole at the top and bottom of each disc.
3. Thread yarn through the punched holes and tie the discs together.

Your timeline is a quiz grade.
